Mantra colabora con un equipo de diseñadores externos muy diverso, especializados en diversas ramas dentro del mundo del diseño.

Profesionales con experiencia en el sector de la iluminación que aportan soluciones novedosas en el desarrollo de nuevos conceptos, participando en todos los procesos de desarrollo del producto, desde el boceto inicial hasta la concepción del producto final.

Esta gran variedad de estilos que nos ofrecen incide directamente en nuestro catálogo, el cual está compuesto por soluciones que se adaptan a cualquier tipo de estilo o necesidad dentro del mundo de la iluminación.

Nuestro trato con los diseñadores va más allá de un mero trato profesional, confiamos plenamente en su buen hacer y en sus métodos de trabajo que nos aporta frescura e innovación en cada una de nuestras colecciones.

Hugo Tejada

Mantra collabora con un team di designer esterni molto diversi, specializzati in varie branche nel mondo del design.

Professionisti con esperienza nel settore dell'illuminazione che forniscono soluzioni innovative nello sviluppo di nuovi concetti, partecipando a tutti i processi di sviluppo del prodotto, dallo schizzo iniziale alla concezione del prodotto finale.

Questa ampia varietà di stili che ci offre influisce direttamente sul nostro catalogo, che è composto da soluzioni che si adattano a qualsiasi tipo di stile o esigenza nel mondo dell'illuminazione.

Il nostro trattamento con i designer va oltre un semplice trattamento professionale, confidiamo pienamente nel loro buon lavoro e nei loro metodi di lavoro che ci danno freschezza e innovazione in ciascuna delle nostre collezioni.

Santolaria & Llusca

Mantra works with a very diverse team of freelance designers, specialized in different branches of design.

They are a group of highly qualified professionals experience in the lighting sector, who contribute with original solutions in the development of new concepts; they also participate actively in the whole product development process, from the initial draft to the lasted finishing details.

This wide variety of styles that our designers offer have a direct impact on our catalogues, which are made up of ideas that are adapted to any type of lighting need.

Besides, we take pride in having a great relationship with them, which goes beyond the professional link. We truly rely on their capability and work methods, which have provided, such innovative and stylish collections so far.

José Ignacio Ballester

Mantra collabore avec une équipe de dessinateurs externes très diverse, spécialisés dans différentes branches dans le monde du design.

Des professionnels avec une grande expérience dans le secteur de l'illumination, qui apportent des solutions innovatrices au développement de nouveaux concepts, et participent dans tous les processus de fabrication du produit, depuis le brouillon jusqu'à la conception du produit final.

cette grande variété de styles influence directement notre catalogue, qui est composé de solutions qui s'adaptent à tous les styles ou besoins dans le monde de l'illumination.

notre relation avec l'équipe de designers va plus loin que le contact professionnel, nous avons confiance sur leur savoir-faire, et leur méthodes de travail qui nous apporte fraîcheur et innovation, pour chacune de nos collections.

ARMONÍA

Colección de iluminación, diseñada por Jose Ignacio Ballester para Mantra, donde fusiona armónicamente looks clásicos y modernos, reinventando la manera de presentar la luz led mediante la fantasía tridimensional de curvas y líneas mínimas dibujadas en el espacio. Su ánima de doble tira de led se alberga dentro de su perfil oval acrílico personalizado; Termo-curvado para llegar a sus agradables formas, transmitiendo así delicadeza visual decorativa, incluso con sus elementos apagados, luciendo de manera eficaz en funcionamiento para expandir sus lumens orbitalmente. Versiones a techo en distintos formatos, a pared, como auxiliares de sobremesa o como pie de salón conforman ARMONÍA, esta especial colección de iluminación para conquistar los más sofisticados entornos y los más exigentes ambientes.

A collection of lightings, designed by José Ignacio Ballester for Mantra, where modern and classical looks are fused, reinventing the way to present the light through a curved tridimensional fantasy and minimalistic lines drawn into space. Its double-strip bore is harboured within its personalised oval acrylic outline; thermo-curved in order to achieve its stylish forms, transmitting so its decorative visual delicacy, even when is is turned off, flaunting efficiently when functioning to expand its lumens orbitally. Ceiling versions in different formats, Wall, Table or Floor lamps make up ARMONÍA, this special lighting collection that will conquer the most sophisticated and exigent ambiances.

Line

Mantra reúne una serie de sus modelos más exitosos en una nueva colección con el hilo conductor de una novedosa propuesta estética y eficaz.

Persiguiendo una forma de iluminar con leds de manera eficiente a 360°, sacando partido a cada uno de sus lumen, *LINE*, propone un perfil acrílico con ánima difusora que expande de manera homogénea todo el torrente de luz interior, evitando sombras y anti-estéticos puntos oscuros para que no distraigan la armonía de sus curvas en sus elementos de iluminación.

Es por ello que modelos ya sobradamente conocidos de las colecciones *NUR*, *INFINITY*, *KNOT* y *SAHARA*, vestirán sus giros con el nuevo perfil compartiendo espacio en la propuesta *LINE*.

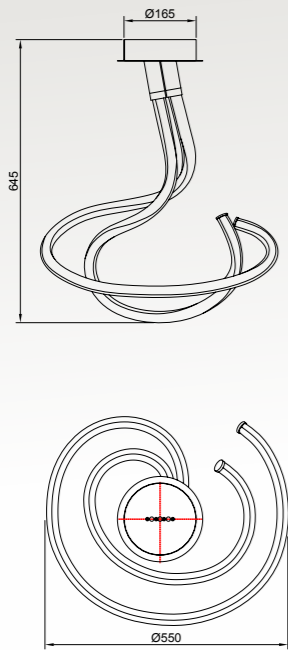

Mantra gathers on this series traits of its most successful collections, with the common thread of a novel aesthetic and efficient proposal. Pursuing a productive led-illuminating 360 degrees system, making the most of all its lumens, it proposes an acrylic profile with a diffusing bore that spreads homogeneously the whole inner light flow, avoiding so any shadows or antiaesthetic black points, so that they do not disturb the harmony of its curves in its lighting elements. That is why the well-known collections NUR, INFINITY, KNOT and SAHARA will.

ALISIO

ALISIO es una nueva propuesta de Mantra, para irrumpir en el sector de los elementos de ventilación, intentando como siempre, aportar un plus de originalidad y frescura con su diseño. Diseño vanguardista y decorativo, que por dimensiones no dificulta estéticamente la visión del lugar al ser instalado, con un anclaje fácil y seguro a techo. Su estética minimalista alberga sus varias funciones, como refrescar y ventilar, caldear e iluminar eficazmente las estancias. Ideal para los dormitorios y zonas de descanso por su adecuación luminosa al efecto y también por su motor DC silencioso y eficiente en verano refrescando, y con su "función inverter" (en posición de giro contrario) que permite recoger el aire caliente y distribuirlo homogéneamente por la estancia en invierno. Además al tener distintas intensidades y velocidades, también puede instalarse en ambientes de mayor superficie, como salones, cocinas o zonas de recreo. Dada su configuración compacta y por su diseño, aporta un plus de seguridad escondiendo sus transparentes aspas, de manera estética y discreta, evitando peligros y accidentes involuntarios. Dimmable con cambio de temperatura de color y con distintas velocidades con su motor DC, controlado todo ello desde su mando a distancia (incluido) o con la opción, si se desea, de realizarlo con la APP vía bluetooth desde su dispositivo móvil.

Por todo ello ALISIO, refunde todo lo mejor de la ventilación e iluminación en una realidad estética y eficaz.

Alisio is a new proposal by Mantra, entering the ventilation sector for the first time, aiming to contribute with a bonus of originality and freshness in its design. An avant-garde and decorative design that given its dimension, does not hinder the vision of the room when installed, with a safe and easy moorings to ceiling.

Its minimalistic style is able to embrace its various functions, refreshing, ventilating, warming up and effectively illuminating any room. Ideal for bedrooms and resting estances due to the lighting possibilities as well as its silent DC engine, able to fresh up the air in summer and with its "inverter" function (in rear position), which allows to pick warm air and distribute it homogeneously in Winter. Furthermore, through its different intensities and speeds, it can be installed in bigger estances, such as living or dining-rooms, kitchens or play areas. Thanks to its compact configuration and design, it offers a safety bonus, hiding its transparent blades in an aesthetic and discreet way, so avoiding any potential danger. Dimmable, with the possibility to change color and temperature and with different speeds in its DC engine, all of it controlled through its remote control (included) or with the possibility to handle it through your mobile phone app via bluetooth.

In short, ALISIO gathers the best of both the ventilation and lighting fields in an efficient and aesthetic reality.

SONATA

Sonata tiene el espíritu de un instrumento solista. Como la forma musical de su nombre, ha sido creada para lucirse con escaso acompañamiento, o bien protagonizando un solo acaparador de miradas. Es una oda a la música, a la cuerda, a la emoción. Y, siguiendo el ejemplo de su inspiración, Sonata llena el espacio con su luz, tal y como lo hace el violín con sus melodías.
Un solo que no te querrás perder.

"Sonata" conveys the spirit of an instrument soloist. As its name suggests, it has been created to stand out with little need of accompaniment, or to be the center of all looks. It is a visual ode to music, cord and emotion. Following the example of its inspiration, Sonata fills the space with the light transparencies, as the violin does with its cords. A solo that you will not be willing to miss.

ÁREA

La nueva tendencia de elementos de iluminación a techo pasa por la integración máxima de estos al efecto intentando, que sean una mínima pincelada que ilumine y se funda en el entorno.

José Ignacio Ballester nos propone *área* una colección de asimetría y grafismo mínimo.

Con la posibilidad de coordinaciones compositivas inusual entre sus elementos. Elementos que desprenden una ligereza decorativa tanto en sus formas como en su luz;

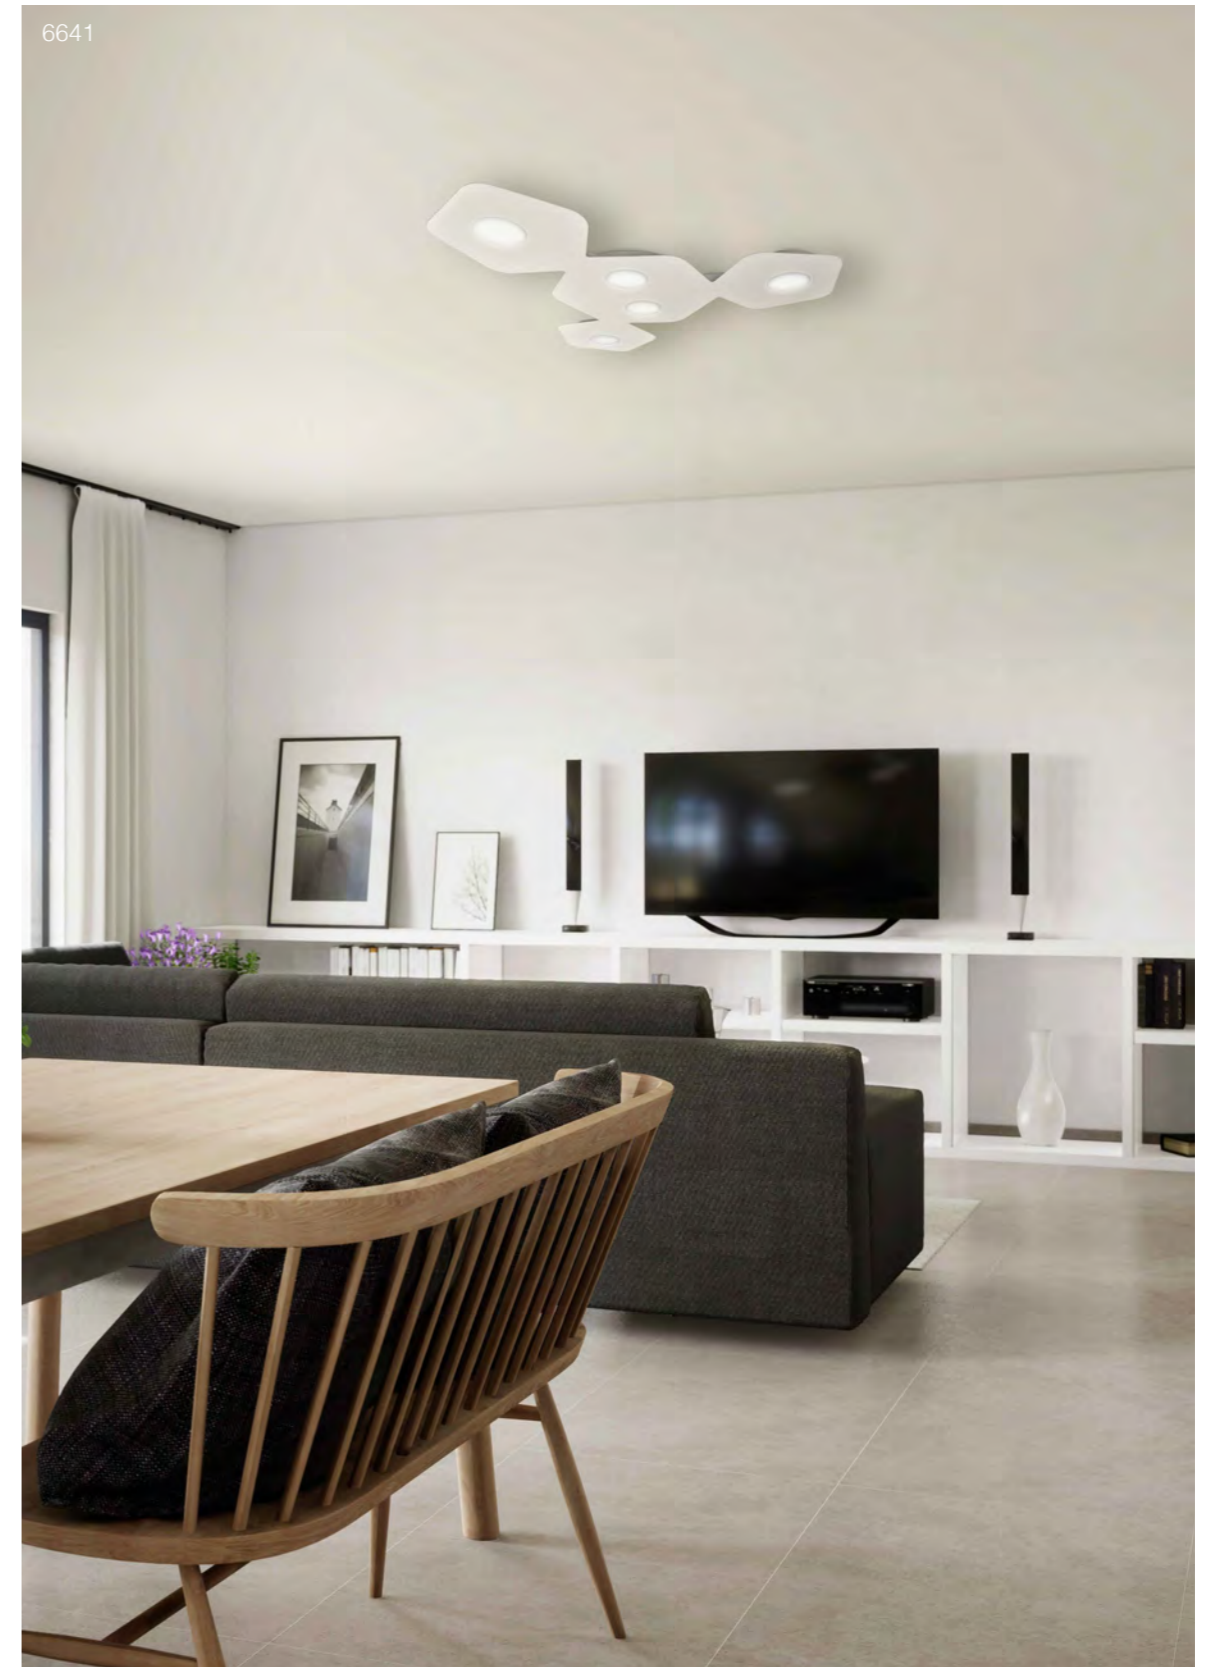

De fácil instalación y mantenimiento dada su estructura de ensamblaje magnético, que nos proporcionan un torrente de luz mediante sus GX53 en sus diferentes disposiciones (de una, dos, cuatro, cinco y siete luces).

Estructuras éstas decoradas en acabado blanco epóxi. Por todo ello *ÁREA* será protagonista en tu estancia elegida, de manera funcional, minimalista y discreta.

The new trend in ceiling lightings is based on their highest integration, considering them as a minimum stroke that enlightens and add life to the the atmosphere. José Ignacio Ballester presents "Area", a collection of minimal assymetry, with the possibility of unusual compositive coordinations which offer a decorative lightness in its forms and light; It is easy to instal and maintain, given its magnetic assembly structure, which provides a source of light through its GX53 in different dispositions(one, two, four, five and seven lights).The structure is done in white epoxi finish.

CELESTE

La lámpara Celeste nos evoca las trayectorias de los cuerpos espaciales. Su haz de luz recuerda al recorrido de una esfera celeste que sigue su órbita. Su diseño aéreo y evocador en tres tamaños encajan con todo tipo de ambientes, del más amplio y atrevido al más sencillo y acogedor. Se presenta en dos acabados que se identifican con la división del cielo, un acabado en aluminio lacado blanco representativo de la luz y la versión en lacado negro acorde con la oscuridad. Su construcción semi-esférica de aluminio alberga un difusor de policarbonato el cual permite la propagación de la luz de forma multidireccional, iluminando homogéneamente su entorno.

The lamp "Celeste" evokes the trajectory of space astros. Its beam of light resembles the path of a celestial sphere on its orbit. Its aerial and evocative three-size design fit perfectly in all type of ambience, from the most daring and widest to the coziest and simplest of them. It is presented in two finishes, which identify with the sky split, a finish in lacquered white aluminium, representative of light and the version in black lacquer, resembling darkness. Its semi-spherical aluminium construction harbors a polycarbonate difusor which enables the spreading of light in a multidirectional way, lighting up the environment homogeneously.

MURAL

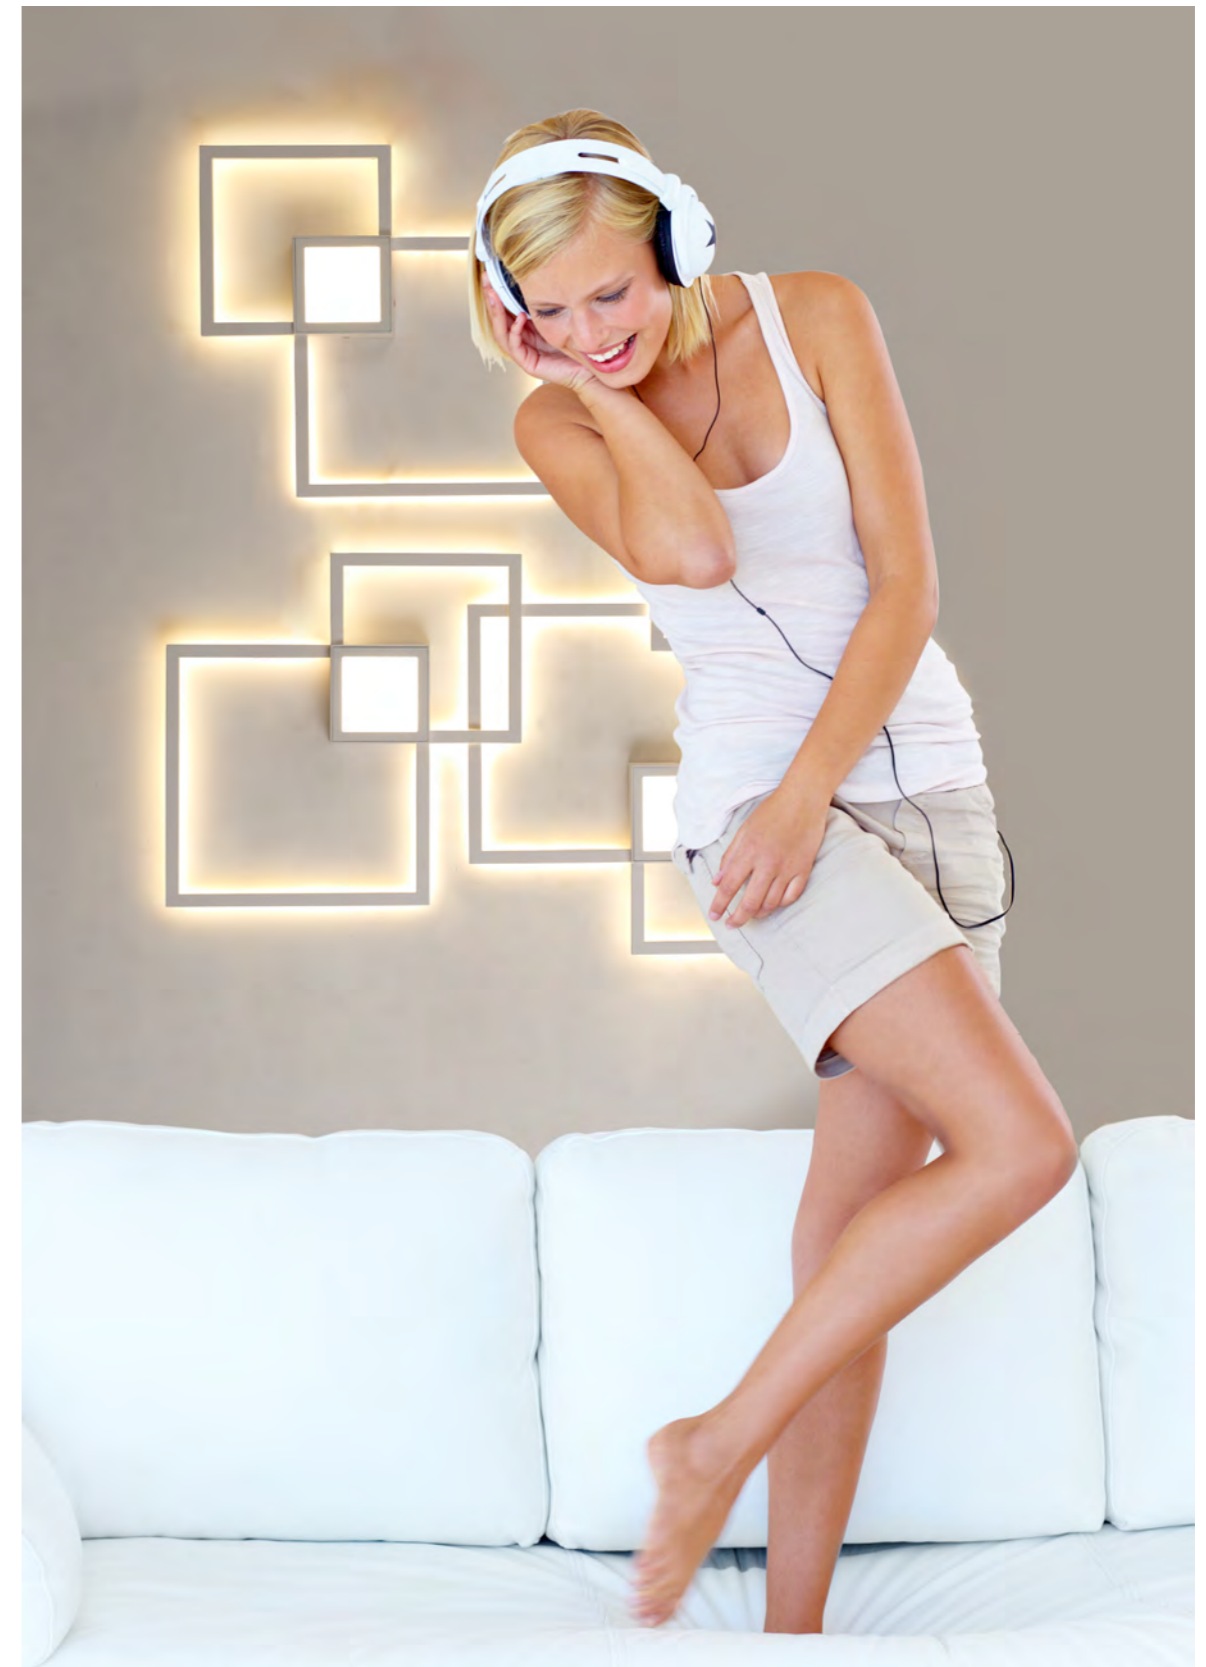

Mantra presenta esta colección de iluminación led, para vestir espacios de manera integral con la superposición compositiva de sus formas geométricas; Estas generan un juego de efectos luminosos que aportan un toque especial en sus diferentes combinaciones posibles por sus estructuras y su luz tanto a techo, pared o como estéticos auxiliares.

Líneas mínimas vestidas de blanco están surcadas por estrechos trazados de led, que aportan una ambientación por contraluz, generando estéticos dibujos sobre las superficies, y a su vez efectivos con sus potentes puntos de luz dirigidos a los espacios. Cruces de ángulos y círculos diseñan sus versiones de apliques y plafones en distintas dimensiones, también estructuras rectangulares en sus modelos de semi-plafón, sobremesa y pie de salón componiendo la colección

MURAL; Elementos minimalistas y estéticos que darán vida y ambiente a tu estancia favorita.

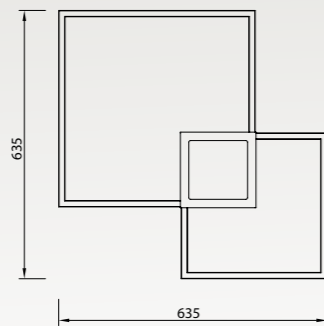

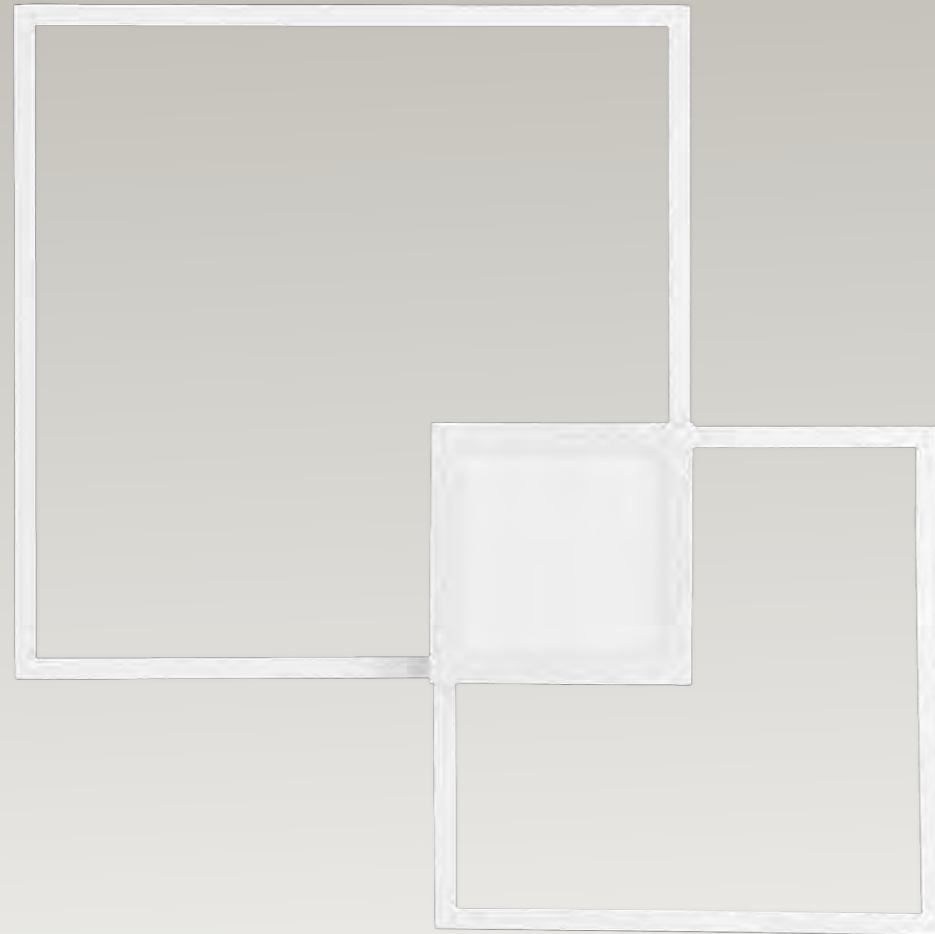

Mantra presents this collection of LED lighting to fully dress up spaces with the compositive superposition of its geometric shapes; these generate a game of lighting effects that contribute with a special touch through its different possible combinations by means of its structures and lights on ceilings, walls or as auxiliary items. Minimal white lines scored by thin intertwined Leds that produce an atmosphere out of backlight, generating aesthetic drawings on surfaces, through its powerful lighting points, when focusing upon them. Angle and circle crossings design its versions of appliques and plafonniers in different sizes and rectangular structures in its models of semi-plaffonier, table lamp and floor lamp, making up this special collection, MURAL: in short, minimalistic and aesthetic elements that will enrich and liven up your favourite living space.

Olimpia

Olimpia parece flotar en el ambiente; casi sin apoyos, se inspira en la fuerza y voluntad de un atleta ejecutando una figura casi imposible. Nace de la admiración a la esencialidad de la forma, a la perfección, que en geometría viene representada por la circunferencia. La distribución equilibrada y uniforme de la luz genera una hipnosis visual que se acentúa cuando se encuentra en una composición lumínica múltiple.

Olimpia seems to float in the environment; barely supported, it is inspired by the strength and will of an athlete executing an almost impossible figure. It is born from the admiration for the essence of form, the perfection, which in geometry is represented by the circumference. The balanced and uniform distribution of light generates a visual hypnosis that is accentuated when it is displayed in a multiple light composition.

Madagascar

La colección MADAGASCAR propone una manera distinta de vestir su fuente de luz LED. Pues mediante giros helicoidales (hasta ahora constructivamente imposibles) reparte equitativamente su luz al espacio, a la vez que plantea originales formas en sus estructuras. Con base acrílica, para recibir la tira led, presenta un difusor dúctil de neopreno traslúcido, que va adaptándose sobre ella y difunde la luz en figuras que van girando sobre su propio eje. De manera que la colección MADAGASCAR la componen colgantes circulares en tres formatos, una lámpara lineal, así como un sobremesa y un estilizado pie de salón para dar un toque distintivo a su espacio elegido.

The MAGADASCAR collection proposes a novel way to embellish its LED lighting source, by using helicoidal twists (of imposible production so far), which equally spread the light into space, providing innovative shapes in its structures. With an acrylic base embracing the LED strip, it offers an adaptable ductile difusor of translucent neoprene, which grows adapting over it and diffuses the light in shapes that twist over its own axis. MAGADASCAR collection consists of three formats of circular pendant, linear lamp, table lamp and an stylish floor lamp to give a distinctive touch to any chosen space.

Tsunami

TSUNAMI es una original colección de iluminación led, donde su diseño nos plantea una presentación diferente de su fuente de luz; Mediante giros y movimientos sobre planos helicoidales definidos se consiguen armoniosas formas que van en combinación concretando cada uno de los elementos que la componen, en cuatro giros su lámpara lineal y plafón cuadrado, de tres en su estilizado pie de salón, y en dos y una para sus auxiliares de pared y sobremesa, cerrando una colección de potentes lúmens con temperatura de color cálida de 3000k.

TSUNAMI is an original collection of led lights, whose design offers a new perspective in its light source; Creative twists and movements over helicoidal plans lead to armonious shapes which result in a perfect combination of its parts, ending up in a set of four twists for the lineal lamp and square plafonnier, , three twists for its stylish floor lamp and two or one in its auxiliary wall and table lamps, becoming a powerful lumens collection with warm colour light of 3000 k.

Helix

Helix es un pie de salón concebido como una curva que da luz y aire a todo su entorno. Esta proyectada como un objeto escultórico para el hogar dentro de un estilo minimalista.

Helix es la metáfora de un a rama que se quiere retorcer hacia la luz formando una línea helicoidal.

Helix is a floor lamp designed as a curve that gives off light and air to its surroundings. It is designed as a sculptural object for the home in a minimalistic style.

Helix is the metaphor of a branch that twists in search of light forming a helical line.

Corinto

CORINTO, diseñada por José Ignacio Ballester es una familia que nos plantea elementos de trazos muy suaves y armoniosos, insinuando formas y siluetas de los primeros formas arquitectónicas simplificándolas al extremo. Elementos en distintos formatos que nos transmiten la potencia de la luz led domándola mediante sus reguladores de intensidad con los que interactuar, para proporcionarnos una delicada luz ambiental. Aliviando con su presencia ambientes sobrios y recargados, planteando nuevas alternativas, iluminando a la vez que vistiendo.
CORINTO, tu nuevo clásico...

*CORINTO, designed by José Ignacio Ballester, is a collection that presents elements with smooth and harmonious strokes, insinuating forms and silhouettes based on the primary architectural shapes, simplifying them to the extreme. Elements in different formats that transmit the power of the ledcontrolled-light by means of its intensity regulators, which provide a delicate atmosphere. It may smooth sober and overdecorated spaces with its presence, as a perfect alternative which illuminates while decorating.

Cinto

"Cinto" Diseñada por Santiago Sevillano para Mantra.
Cinto es un juego de contrastes formales entre la linealidad de la luz y la curvatura de sus uniones metálicas que le otorgan un carácter elegante y atemporal ideal para decorar cualquier ambiente sin perder su funcionalidad como elemento de iluminación gracias a la cuidada disposición de las fuentes de luz led.

"Cinto" has been designed by Santiago Sevillano for Mantra. Cinto is a set of contrasts between the linearity of light and its arch of metallic joints, which deliver an elegant and timeless character. It is ideal to decorate any atmosphere, without losing its functionality as a lighting fixture, thanks to the careful arrangement of LED illumination.

Santiago Sevillano

6136

Ring

RING es un concepto limpio y sugerente que nace de la necesidad de iluminar el vacío, de crear un objeto de la mínima expresión, un producto bello y a la vez funcional. RING está inspirada en la filosofía Zen y su creencia en la espiritualidad del vacío. En RING hemos utilizado el vacío como forma, enmarcándolo dentro de un objeto minimalista, casi escultórico, para crear un aro donde nace la luz, direccionando esta fuente de luz para iluminar el espacio generado en el centro de su estructura. La lámpara está fabricada en inyección de aluminio, material que aporta rigidez y ligereza a la pieza, además, incorpora tecnología LED de alto rendimiento, ideal para ser integrado en su reducido espesor. RING nace para ser la protagonista, un objeto para ser contemplado, opción perfecta para generar ambientes íntimos sin perder eficiencia y funcionalidad.

RING is a clean and surprising concept that arises from the need to illuminate the void, to create an object of minimal expression, a appealing and functional product. RING is inspired in Zen philosophy and its belief in the spirituality of emptiness. In RING we have used the void as a form, a minimalistic sculptural frame where light is born, directing it to the space generated at the center of its structure. The lamp is made of aluminum injection, material that provides rigidity and lightness to the item; It also incorporates high performance LED technology, perfect to be integrated in its reduced thickness. RING has been born to be the protagonist, an object to be contemplated, a perfect option to generate intimate environments without losing efficiency and functionality.

JAZZ

Jazz es la destilación formal de elegancia y estilo en los años 50 como forma de ritmo constructivo. “..Cerrar los ojos. Imaginaros que estáis en Nueva York, callejeando y unas notas musicales salen de dentro de un club. Imaginaros un contrapunto de sensaciones paseando por el barrio de Akasaka de Tokio y, dentro de ese caos encuentras un oasis de paz con notas melódicas, rodeado de madera y fotos de grandes glorias.” Jazz se inspira formalmente en trompetas, saxos y trombones clásicos, con detalles únicos de este estilo de música. Juega con la estética vintage y se inspira en ella para darnos unas forma cálidas.

Jazz is the formal distillation of elegance and style of the 50 's as a shape of constructive rhythm. Close your eyes. Imagine that you are in New York, hanging around and some musical notes come out of a club. Imagine a counterpoint of sensations, strolling along the Akasaka suburb in Tokyo, and within that chaos, you find an oasis of peace with melodic notes, surrounded by wood and pictures on ancient glories. "Jazz" is formally inspired on trumpets, saxophones and classical trombones, with unique details of this music style. It plays with the "Vintage" aesthetics and it is inspired on it to convey its warm shapes.

ALBORÁN

Alborán sigue la línea del minimalismo que define el estilo del diseñador, otro concepto de líneas puras donde el efecto de luz prevalece frente a la forma. Una vez más, Hugo Tejada utiliza elementos naturales como fuente de inspiración. En esta ocasión el movimiento del mar y los reflejos creados por la proyección de la luz sirven como elemento inspirador para crear la lámpara Alborán. El efecto lumínico es el elemento clave, la composición en diversas alturas de sus pantallas metálicas permite que la luz fluya entre las mismas creando una degradación de intensidades con gran sutileza y elegancia, un objeto cálido y amigable que no pasará desapercibido.

Alborán follows the line of minimalism that defines the style of the designer, another concept of pure lines where the effect of light prevails over form. Once again, Hugo Tejada uses natural elements as a source of inspiration. On this occasion the movement of the sea and the reflections created by the projection of light serve as an inspiring element to create the lamp Alborán. The light effect is the key element, the composition at different heights of its metallic screens allows light to flow between them creating a degradation of intensities with great subtlety and elegance, a warm and friendly object that will not go unnoticed.

MANTA

Tiene su origen en la investigación sobre superficies 4D, al mismo tiempo que hemos tomado como referencia la sinuosidad que define la cúpula del Oceanografic. Su característica radica en que con tan solo un emisor de luz, es capaz de repartir la iluminación de manera equitativa a casi los 360°. Gracias a sus formas onduladas debidamente unidas.

It has his origin in the research on 4D surfaces, at the same time that we have taken as reference the sinuosity that defines the dome of the Iconic Oceanografic of Valencia, designed by Felix Candela. The characteristic is that: with only one light emitter, it is able to distribute the lighting equitably to almost 360°. Thanks to his undulating forms duly joined.

NUR

Un trazo de luz sin principio ni fin conforma el diseño de esta original colección de iluminación, INFINITY. Diseñada por Jose Ignacio Ballester para Mantra y fundamentada sobre las bases de la anterior colección NUR; INFINITY es una colección de luz led efectiva, limpia y minimalista, como podremos comprobar es sus versiones de colgantes y lámparas, donde sus líneas quedan elegantemente suspendidas en el aire. La componen elementos en varios formatos como lámparas en distintas medidas, plafón a techo, así como también un sobremesa. Están construidas en un ligero perfil de aluminio, con difusor de policarbonato mate, el cual nos permite el realizar y adaptar sus giros y curvaturas de forma limpia. Con dos acabados diferenciadores, uno, el plata combinado con cromo, luz led 4000k. para ambientes más vanguardistas y modernos. Y otro el acabado en forja, con luz cálida de 3000k. para ambientes un tanto más clásicos o incluso rústicos.

An illuminated line without beginning nor end, conforms this original lighting range. Designed by José Ignacio Ballester for mantra and based on the previous collection NUR; INFINITY is an effective lighting range, pure and minimalist, with its elegant lines in suspension. It is composed by several shapes and sizes, in ceiling, chandelier or table lamp. Constructed with a light and profiled in chrome, with polycarbonate mat diffuser, which allows to realize and adapt the curves, and turns. With two differentiating versions, one in silver combined with chrome, with led 3000k, for avant-garde and modern atmosphere. And the other, in brown oxide, with warm light 2800k, for classic or rustic ambient.

KNOT LED

Mantra vuelve a beber de sus colecciones tipológicas, el giro y el movimiento alrededor del eje, en este caso dando pie a un juego minimalista y esencia donde solo la luz es el discurso de la estructura. KNOT LED es una lámpara de araña ligera, compuesta por curvas con un estilo particular y característico. Su tecnología LED permite a esta lámpara iluminar y embellecer cualquier ambiente. Atractiva y geométrica, al mismo tiempo matemática, así, en la disposición de sus brazos, da como resultado un producto arquitectónico en suspensión que permite el flujo de luz en la habitación.

Mantra drinks again from their typological ranges, rotation and movement around an axis, in this case giving rise to a minimalist essence game where only light the address of the structure is. KNOT LED is a very light chandelier, marked by the curves chosen as a particular and characteristic style. Its LED technology allows this lamp to illuminate and embellish any environment. The attractive and geometrical, almost mathematical, way in which their arms are arranged, results in a symmetrical flying architectural product that lets light flow into the room.

SÁHARA

SÁHARA XL, nueva opción propuesta para ampliar la colección con nuevas medidas que se adapten a distintas necesidades con el objetivo de abarcar mayor número de posibilidades aportando versatilidad a la colección. En este restyling se ha optado por ampliar las medidas de dos de las aplicaciones más importantes de la colección, la lámpara colgante y el pie de salón, al aumentar su tamaño también se ha mejorado su rendimiento, adquiriendo mayor potencia lumínica y mejor rendimiento con un mínimo consumo, la opción idónea para clientes que necesiten objetos de mayor tamaño y mejor rendimiento. Por otro lado se ha incorporado un nuevo acabado para abarcar otro tipo de ambientes decorativos, el acabado forja, opción que combina a la perfección con espacios decorativos más tradicionales, en los cuales predominen los tonos cálidos y los acabados naturales, una alternativa para ambientes de estilo rústico o contemporáneo, sin abandonar sus líneas modernas y vanguardistas que definen a la colección SÁHARA.

SAHARA XL, new option to expand the collection with new measures that suit different needs in order to cover as many possibilities providing versatility to the collection. In this restyling has chosen to extend the measures of two of the most important applications of the collection, the pendant lamp and floor lamp, increasing its size also has improved the efficiency, gaining light and more power with minimum consume, the ideal choice for customers who need larger objects and better performance. On the other site it has a new finish to supply other types of decorative environments, "forja" finishing, it is a option that combines seamlessly with more traditional decorative spaces in which predominate warm tones and natural finishes, an alternative for rustic environments or contemporary style, without abandoning the modern and avant-garde lines that define the SAHARA collection.

AIRE&STAR LED

El perfil formal de Aire&Star está basado en la clásica manufactura del trenzado de cestos y la estructura que dibuja el perfil de los molinos de viento. Aspectos que aunados otorgan a Aire&Star su característica estética quijotesca, sencilla a la par que espléndida. Líneas de inspiración arquitectónica, entrelazadas en el espacio de manera libre y abierta, alrededor de un eje central. Un conjunto de líneas aleatorias que aportan a la Aire&Star su característico dinamismo y ligereza visual.

The formal profile of "Aire&Star" is based on the basic manufacturing of baskets' braiding with an structure that draws the profile of windmills. Aspects which united, contribute to Aire's characteristic Quixotesque aesthetics, simple as well as splendid. Architecture-inspired lines, openly intertwined in space, evolving into a central axis. A complex of random lines that provide its characteristic dynamism and visual lightness.

BUCLE

La mínima expresión materializada en un objeto de decoración, esta sería la definición más concisa que definiría la colección *Bucle*. El concepto se basa en la continuidad de la luz, en crear una sensación de luz continua a lo largo de un volumen lineal, limpio y puro, un objeto aparentemente sencillo pero a la vez complejo. La colección incorpora luz Led de alto rendimiento que permite una difusión de luz mágica y amigable. *Bucle* está compuesta por diferentes aplicaciones que permiten decorar la estancia con el mismo estilo, una colección polivalente de carácter decorativo, el efecto de luz como protagonista sin elementos superfluos, una línea de luz continua que iluminará la estancia con la mínima expresión.

The minimal expression materialized in an object of decoration, this would be the more concise definition that would define the collection BUCLE. The concept is based on the continuity of light, creating a sense of continuous light along a linear, clean and pure volume, an object apparently simple but at the same time complex. The collection incorporates high performance LED light that allows a magical and friendly light diffusion. BUCLE is composed by different applications that allow to decorate the stay with the same style, a multipurpose collection of decorative character, the effect of light as protagonist without superfluous elements, a continuous line of light that will illuminate the stay with the least expression.

Adn

Una distribución anárquica de puntos de luz conforman las estructuras de ADN, con equilibrio estético y visual. La colección de led ilumina de forma potente y presenta una gran variedad de elementos en diversos formatos.

Como característica principal sus armazones, decorados en blanco epoxi, aporta la posibilidad de reemplazar sus puntos de led, si ocasionalmente fuera necesario. "ADN" distinta, diferente y original, destinada a vestir e iluminar tu espacio favorito.

An anarchic distribution of lighting points conform the structures of DNA, with an artistic and visual balance. This LED collection illuminates in a powerful way and presents a wide variety of elements in different formats. As a main characteristic, its frames, decorated in white epoxy, provide the possibility of replacing its LED points, if necessary. "ADN" is a different and original piece, destined to dress and illuminate your favorite space.

INDUSTRIAL

Revisando la estética industrial, se recuperan materiales y formas de construcción propias de otra época, que junto a acabados envejecidos dan como resultado diseños atemporales con aire retro. Se produce un *Déjà vu* donde el inconsciente del pasado enriquece nuestro presente. Las cinchas de tela que sirven para colgar las lamparas proporcionan un toque cálido, que dulcifica el elemento industrial y da la idea de terminado a mano, de manufactura, casi de producto de recuperación, como si fuese reciclado. En estos momentos, superado el minimalismo, nos rodeamos de objetos que nos cuenten una historia, que nos aporten experiencia y nos acompañen en el futuro.

Reviewing the industrial aesthetic, recovering materials and ways of another era, combined with aging finishes, result in timeless designs with retro flavour. It produces a "déjà vu" where the unconscious of the past enriches our present. Fabric straps used to hang the lamps, provide a warm touch that softens the industrial component and gives the idea of hand made, recovery product, almost as if it were recycled. Right now surpassed minimalism, we surround ourselves with objects that tell us a story, that bring us experience and join us in the future.

MAUI

MAUI, es una serie de lámparas colgantes que dependiendo de la materia prima utilizada para su producción, puede ofrecer diversas personalidades: desde el frío cemento de carácter industrial y urbano, al blanco roto y la calidez de la madera. En cualquiera de estas versiones, la delicada línea que dibuja el perfil de MAUI emana sensaciones de frescura y tranquilidad que nos transportan a paisajes lejanos. Una lámpara adaptable a diversos tipos de proyectos, gracias a sus formas esenciales y orgánicas. MAUI transmite luz tanto por su parte inferior como superior, permitiendo iluminar la mesa y el techo a la vez, funcionando así, como un característico y original elemento de apoyo ornamental.

MAUI, is a set of pendant lamps which depending on the raw material used for its production, can offer various personalities from the cold cement industrial and urban character, to the broken white and the Warmness of the wood. In any of these versions, the delicate line that draws the MAUI 's profile, emanates feelings of freshness and tranquility that transport us to distant landscapes. A lamp adaptable to various types of projects, due to its essential and organic forms. MAUI transmits light in two directions, upward and downward, allowing illuminate the table and ceiling at the same time, functioning as decorative and sculptural element support.

ORGÁNICA

ORGÁNICA, Sorprendente y mágica, diseñada para ser un objeto clave dentro del espacio decorativo, funcional y a la vez estética, elegante pero transgresora, un objeto atemporal que pueda perdurar en el tiempo. Una vez más, el diseñador vuelve a inspirarse en la naturaleza para concebir la colección ORGÁNICA. Sus formas fluidas e irregulares están inspiradas en elementos marinos, corales, esponjas naturales, zonas rocosas marinas... estructuras aparentemente complejas, con multitud de cavidades y superficies porosas, trasladadas a un objeto funcional y cotidiano.

ORGÁNICA, Surprising and magical, designed to be a key subject within the decorative space, functional and aesthetic, elegant and transgressive, a timeless object that can last over time. One more time, the designer is inspired in the nature for conceiving the collection ORGÁNICA. Its fluid and irregular shapes are inspired by marine elements, coral and natural sponges, sea rocky areas... apparently complex structures, with many cavities and porous surfaces, transferred to a functional and daily object.

Clase II

NÓRDICA II

La exitosa colección Nórdica, crece con nuevas lámparas ampliando sus posibilidades de uso. Por un lado están los colgantes de 3 y 5 pantallas que completan la oferta de techo aportando un mayor volumen, pudiendo ser utilizadas tanto para dar luz general, como para situarlas sobre una mesa de comedor y un aplique con doble brazo de madera muy práctico y elegante. El resto de novedades; sobremesa, pie de lectura con mesa, y apliques con mesilla, incorporan una toma USB. Estos diseños nacen como respuesta a una necesidad de la gente, de poder recargar dispositivos electrónicos como teléfonos móviles de una forma cómoda y sencilla, manteniéndolos siempre al alcance de la mano para poder seguir utilizándolos. Tecnología y funcionalidad se funden con las pantallas y la madera en un diseño más dulce y humano.

The successful Nordic collection grows with new lamps expanding its usability. On one side are the pendants of 3 and 5 shades, complete the offer of ceiling providing a greater volume, and can be used both to provide general light as to place them on a dining table, and a wall lamp with a wooden double arm very practical and elegant. The rest of novelties; table, floor reading with table and wall lamps with bedside table, all incorporate a USB port. These designs are born in response to a need for people able to recharge electronic devices such as mobile phones in a convenient and easy way, always keeping them close at hand to continue using them. Technology and functionality merge with shades and wood in a sweeter and human design.

NÓRDICA

Colección de lámparas que combinan pantallas traslúcidas que nos permite intuir el interior, con estructuras articuladas que combinan metal en acabado blanco o negro con madera natural, combinaciones modernas y atemporales que encajan con cualquier estilo. Calidez y funcionalidad van de la mano fundiendo el espíritu nórdico con el mediterráneo. NORDICA está diseñada para ambientes serenos donde se respira la tranquilidad del hogar, espacios íntimos que transmitan bienestar y pureza.

This collection combines translucent shades that allows us to sense the interior, with articulated structures that combine metal in white or black with natural wood finish, modern and timeless combinations that fit with any style. Warmth and functionality walks hand in hand and makes fusion between Nordic Mediterranean style. NORDICA is designed for sober space, where you can enjoy comfort and pureness.

LOOKER

LOOKER es una singular lámpara de estudio, con la que interactuar para que adopte esa posición que más te agrada. Diseñada por Santiago Sevillano, para que además de su luz nos aporte compañía, pues su simpática presencia seguro pasa a formar parte de ese especial lugar de tu hogar. Juvenil y fresca en su combinación de metal con apuntes de color, ... de aires nórdicos en su acabado de madera es perfectamente adaptable a zonas de estudio o aportar presencia como punto decorativo. Alberga luz de bajo consumo (E27). Sus acabados en versión de metal combinan el blanco con remates en pistacho o fresa. Y en la versión de madera natural con remates en blanco, no te serán indiferentes. Haz un sitio en tu espacio favorito... llega LOOKER.

LOOKER is an exceptional study lamp; it can be easily adjusted in the position which pleases you most. Designed by Santiago Sevillano, it provides a light that accompanies us; its cosy safe presence will make your home a special place.

Refreshingly young with a design that combines metal with touches of colour, it evokes a Nordic setting with its wood finish, perfectly adapted for study areas or to provide a bright presence as a decorative point. It houses low energy light (E27). Its finishes in the metal version combine the white colour with pistachio or strawberry finishes. The natural wood version with lovely white finishes will also impress you.

Make room for a new light in your favourite space...

LOOKER has arrived.

MEDITERRÁNEO

El efecto lumínico como protagonista, el valor de la sombras y las luces proyectadas por un objeto luminoso, Mediterráneo está diseñada para ser un concepto imperecedero, no es un objeto de tendencia, está destinado a perdurar en el tiempo. Mediterráneo se inspira en el movimiento de las olas, sus líneas orgánicas acentúan el carácter amigable de su pantalla, creando una sensación mágica a lo largo de su superficie de cristal. Gracias a la utilización de cristal de alta calidad la luz se difumina homogéneamente generando una iluminación dulce e íntima. La colección está compuesta por una gran variedad de aplicaciones y acabados metálicos, perfecta para ser utilizada en ambientes íntimos y acogedores o en grandes instalaciones.

The lighting effect as protagonist, the value of shade and light projected in a luminous object, Mediterráneo is designed to be an enduring concept, It is not a trend object, It is destined to last over time. Mediterráneo is inspired by the movement of the waves, organic lines accentuate the kind of their screen, creating a magical effect along their glass surface. By using high quality glass, the light is sweet and intimate. The collection consists of a variety of applications and metallic finishes, this is perfect for use in intimate and cozy places or large premises.

KHALIFA

KHALIFA, juega con el brillo. KHALIFA es un sueño de las mil y una noches hecha luz. Esta lámpara se inspira en el mundo oriental del lujo y la geometría, aportándole una nueva dimensión mediante la luz y añadiendo un juego de fractales gracias a su cristal, que emite y expande multitud de reflejos. Dentro del más alto refinamiento, produce un increíble e interesante juego lumínico, creando un ambiente distinguido a la vez que proporciona un nivel decorativo inigualable.

Es un objeto que bebe del entorno y devuelve elegancia al espacio donde reside.

KHALIFA, plays with brightness. KHALIFA is a arabic tale made light. This lamp is inspired by traditional luxury arabian world, bringing a new dimension by adding light and a set of fractals thanks to its crystal, which emits and expands many reflections. Within the highest refinement, it produces an amazing and interesting play of light, creating a distinguished ambient while providing an unmatched ornamental level. It is an object that drinks from the environment and returns elegance to the space it is placed in.

ZACK

Es una colección de iluminación basada en una tulipa de cristal opal de gran formato de diseño romántico, por sus formas, pero de adaptación total a cualquier ambientación bien sea moderna, clásica e incluso de entorno vanguardista. Por su volumetría esta pensada para albergar vistiendo, la iluminación de bajo consumo. La colección la componen colgantes en racimo...lineales, y colgantes simples, ajustables todos ellos en altura. Así como pie de salón sobremesa y aplique de pared. La tulipa esta realizada en cristal opal soplado, trabajado y rematado manualmente. Sus elementos metálicos de complemento están en el acabado níquel mate.

his lighting collection is based on an opal glass lampshade in a large format whose shapes have a romantic design, completely adapted to all environments, regardless if they are modern, classic or even avant-garde. Its volumetric design has been created to house decorative low-consumption light. The collection is comprised by hanging lamps in a grape bunch design, linear models, and simple hanging lamps, all height-adjustable. It also includes floor lamp, table lamp and wall lamp. The lampshade is executed in blown opal glass, manually handcrafted and finished. Its accessory metal elements have a dull nickel finish.

QUATRO II

Esta luminaria LED está diseñada para complementar la colección QUATRO, esta vez el diseño se basa en la forma cuadrada de su volumen general. Diseñada por el equipo Mantra con la intención de complementar el sector de la iluminación de cocinas.

La colección combina tecnología y simplicidad para crear un objeto funcional y a la vez decorativo. QUATRO está fabricado en acrílico opal e incorpora fuente de luz led de alto rendimiento, su rendimiento lumínico es espectacular, ideal para cocinas contemporáneas que necesiten ser iluminadas de una manera eficiente y a su vez eficaz.

This LED lighting is designed to match the QUATRO COLLECTION, This time the design is based on the square form of its common volume. It is designed by Mantra team with intention to complement the kitchen lighting section. The collection combines technology and simplicity to create a decorative, yet functional object. QUATRO is made of acrylic shade incorporated high-performance LED light source of which is spectacular light output, ideal for contemporary kitchens that needed to be illuminated efficiently and effectively.

EGG

EGgg es una colección de plafones, diseñada por José Ignacio Ballester, de líneas informales y amorfas. Su luz interior proyectada sobre sus suaves formas orgánicas se distribuye de manera agradable y difusa, sin proyectar sombra alguna. Realizada en inyección plástica de polietileno, alberga en su interior portalámparas de E27 para poder colocar luz led o bajo consumo. Estando homologada para poder ser instalada en lugares cubiertos al exterior, ya que goza de IP44. Como detalles complementarios presentan una placa central de acero inox, dándole un toque personal y especial.

Egg is a collection of panels, designed by Jose Ignacio Ballester, informal and amorphous lines. The interior light projected onto her soft organic shapes nice and is distributed diffusely, casting no shadow. Made of polyethylene plastic injection, contains in its interior lamp to put E27 or low energy LED light. Being eligible to be installed in locations covered outside, and enjoying IP44. As additional details have a central plate stainless steel, giving a personal and special touch.

EOS MUSIC

Desde que años atrás José Ignacio Ballester las creara para MANTRA, las nubes de la colección *Eos* han pasado a ser parte de muchos hogares. Dada su versatilidad y exitosa aceptación, MANTRA ha querido distinguir al dotar de equipación de sonido bluetooth a este, el modelo intermedio de "nube", que por tamaño y diseño se ha convertido en el más popular de la colección. *Eos* pues, a partir de ahora, será también acompañamiento de luz y sonido ambiental en tu hogar.

Some years ago, Jose Ignacio Ballester created for MANTRA; EOS the clouds' collection has been renewed to accompany many households. Given its versatility and successful acceptance, Mantra required distinguishing it with Bluetooth sound equipment to the intermediate "cloud" which is the most popular size and design among its collection. EOS, so from now on, accompany your home with light and sound.

EOS

EOS, replica las formas de las nubes y alberga una instalación alimentada por bombillas de bajo consumo, cuya luz es repartida de forma difusa y eficaz. Cuentan con el IP44 que las posibilita tanto para su instalación en interior como en el exterior bajo techado, también con una pieza convertible en lámpara de salón, suspendida con sistema de cable de acero.

EOS recreates the shapes of clouds and houses an installation supplied by low-consumption light bulbs whose light is distributed in an efficient glow. It is equipped with IP44 which facilitates its installation in an indoor or outdoor sheltered location, It is also equipped with a piece which can be converted into a living room lamp, hung with a steel cable system.

SABINA

La tendencia creciente del "Brutalismo" en el interiorismo, ha sido interpretada por José Ignacio Ballester con la colección SABINA. Sabina, de suaves trazos rústicos, emula las texturas y colores de la madera con sus construcciones metálicas decoradas al efecto. Elementos que combinan pantallas de arpillera en distintos tamaños y cables electrificados con revestimiento textil, emulando la cuerda, que sustentan los elementos en el aire formando composiciones de distintos formatos, enlazándolas con simples nudos. Ambientes rústicos de montaña o rincones junto al mar al más estilo ibicenco, son perfecto lugar para presentar cualquiera de sus propuestas de techo y sus auxiliares, vistiendo estéticamente y de manera diferente su lugar elegido.

The growing trend of "Brutalism" in interior design has been interpreted by José Ignacio Ballester with the SABINA collection. SABINA, with soft rustic strokes, emulates the textures and colors of the wood with its metal constructions decorated to such effect. Elements that combine burlap shades in different sizes and electrified cables with textile covering, emulating the rope, which support the elements in the air forming compositions of different formats, lacing up with simple knots. Rustic mountain ambiances or seaside Ibiza style corners are the perfect place to display these ceiling proposals, dressing aesthetically and in a unique way your favourite place.

Andrea

Colección de iluminación pensada como propuesta de actualización de los "clásicos". De líneas agradables y frescas, realizando un guiño a las composiciones de antaño. Combinando materiales y acabados atrevidos, como sus pantallas de textura piel en blanco (que una vez iluminadas nos transmiten luz cálida ambiental), con copens que matizan en las composiciones un contrapunto por contraste (en color blanco para el acabado cuero y negro para los cromos) en las suaves y sinuosas líneas de sus estructuras. ANDREA es un nuevo clásico para vestir de manera elegante los más sofisticados ambientes, sin perder el carisma de la iluminación de siempre.

A series of lighting designed as a proposal to update the "classics". Of pleasant and fresh lines, giving a wink to yesteryear compositions. Combining daring materials and finishings, such as white skin textured shades (which produce a warm atmosphere), with crystals that tint in the compositions a contrasting counterpoint (transparent crystal for the antique brass and black crystal for the chromes) in the soft and sinuous lines of their structures. ANDREA is a new classic to dress stylishly the most sophisticated places, without losing the charisma of conventional lighting.

Paola

Colección de líneas sofisticadas y elegante.

Con estructuras de metal sinuoso, decoradas en color oro viejo y plata envejecida con pátinas, rematadas con "lágrimas" de cristal en color coñac o negro. De pantallas traslúcidas de algodón, en blanco o negro, que transmiten calidez y luz ambiental. Complementando a PAOLA y cerrando una colección de agradable armonía en su clásico diseño.

Collection of sophisticated and elegant lines.

With sinuous metal structures and decorated in old gold and old silver with patina topped with glass tears in cognac or black color. Translucent shades in cotton, black or white, which transmit warmth and ambient light. Complementing Paola and closing a collection of pleasant harmony in its classic design.

TIFFANY

Es una elegante colección de iluminación, que transmite y aporta elegancia al lugar dispuesto.

Sus transparencias de luz tamizada, junto con los brillos de sus adornos de pedrería de cristal facetado, la hacen sofisticada y eficaz en su función de iluminar decorando. José Ignacio Ballester la creó y diseñó para Mantra buscando una colección ambivalente tanto para grandes espacios, así como para lugares a los que vestir de forma especial. Combina luz E27 o E14 según su diseño y formato, acompañadas estas con G9 en su alojamiento inferior, solución aportada para realzar los brillos de sus tallas de cristal, y a su vez iluminar las superficies donde se proyecta y focaliza su luz. Combinación en sus acabados cromo con pantallas de organza blanca, o en decoración cuero envejecido con pantallas en organza color coñac, son los que visten esta amplia colección compuesta de lámparas colgantes en distintas presentaciones, lámparas lineales, pies de salón, apliques y sobremesas.

Tiffany is an elegant lighting collection, that transmits elegance to the chosen place. Its sifted light transparencies, along with the sparkles of crystal stones make of this lamp a sophisticated and efficient lighting fixture that illuminates while decorating. José Ignacio Ballester created and designed it for Mantra in the search of an ambivalent collection, both for wide spaces and for places in need of a special atmosphere. It combines E27 and E14 lights, depending on format, accompanied by inner G9 at the inferior part, a solution that enhances the shines of its crystal carvings, as well as illuminating the surfaces where the light is focused. It comes in different finishings, either chrome with shades in white silk fabric, or old leather with cognac color silk fabric. The collection is presented in different fixtures: linear lamp, floor lamp, wall lamp and table lamp.

EVE

El diseñador J. I. Ballester crea para Mantra... EVE. Propuesta sencilla, escueta y elegante de iluminación, tal vez romántica. De trazos limpios, coronada con unas pantallas circulares y ovales, que conforman elementos de iluminación con personalidad propia. La colección la componen lámparas, lineales, plafones, colgantes, Auxiliares con diversas adaptaciones y pie de salón. De tal manera son tan simples y suaves sus líneas que Mantra a dispuesto la presentación de la colección en dos acabados que armonizan efectivamente con sus pantallas. Son el acabado cromo, (con pantallas negro y crudo) y el gris antracita (pantallas en crudo). Permitiendo estas opciones que se puedan ubicar las piezas de la colección tanto en ambientes modernos, como también en espacios sofisticados y elegantes. Por su proporción de pantallas esta pensada para albergar el bajo consumo discretamente, siendo pues otro aliciente más de EVE, a tener en cuenta para formar parte de

The designer, J. I. Ballester has designed a special collection for Mantra... EVE. An elegantly simple proposal, with a slight romantic touch. With clean lines, crowned with circular and oval shades which comprise lighting elements with their own personality. The collection is comprised by lamps, linear models, ceiling and hanging lamps, Auxiliary lamps with diverse adaptations and floor lamp. Their lines are so simple and smooth that Mantra has presented the collection in two finishes which evenly match their shades. They are chrome finish, (with black and natural shades) and grey coal (shades in natural colour). These options permit the placement of these collection's items in modern atmospheres as well as sophisticated elegant spaces. Based on their shade proportions, they are designed to discretely house low-consumption light, which makes EVE even more appealing as a lighting option for your home.

LUA

Simplicidad, líneas depuradas y escuetas definen la colección LUA. José I. Ballester con trazos de movimiento envolvente crea, para Mantra, esta colección de iluminación, romántica y elegante, combinando pantallas y metal. Todos sus elementos nacen de un solo trazo, una sola línea que conforman su estructura, sobre la cual se disponen los puntos de luz. La belleza de su lámpara lineal solo se ve igualada, con el especial diseño de su lámpara circular, siendo estos sus más peculiares elementos y que son acompañados por colgantes, plafones, sobremesas y apliques en varios tamaños y un espectacular pie de salón. La colección adapta luz E27, preparada pues perfectamente al bajo consumo. Y se presenta en combinación de dos acabados. Níquel satinado con pantallas plisadas en blanco, lo que le otorga un aire sofisticado, y una segunda combinación, decorando las estructuras en color gris ceniza y sus pantallas lisas a juego, aportando un aire más nórdico. LUA pues... es la perfecta combinación de elegancia y simplicidad que estabas buscando para ese lugar de tu hogar.

Simplicity, succinct and refined lines define the LUA collection. José I. Ballester, with strokes of enveloping movement, created this romantic and elegant collection, combining fabric shade and metal. All elements are born by a single stroke, only one line that makes its structure on which are placed the light points. The beauty of its lineal lamp only looks even, compared the special design of the circular lamp, being the most peculiar elements and it is accompanied by pendants, ceiling, table lamps and wall lamp in various sizes and also a spectacular floor lamp. The collection utilizes E27 lamp, prepared therefore perfectly for energy saving bulbs. It is offered with combination of two finishes. Nickel Satin with pleated white shade which gives a sophisticated atmosphere, and another combination decorating the structures in ash-grey finish comes with plain shade, providing rather Nordic taste. LUA... is the perfect combination of elegance and simplicity that you have been looking for "that place" in your home.

José Ignacio Ballester

NINETTE

Ninette, es el nombre que da título a esta romántica colección de iluminación, simple y sucinta, propuesta por José Ignacio Ballester para Mantra. Breves trazos inacabados arman las estructuras de sus elementos, las livianas líneas de sus armazones sintonizan con el movimiento que aportan sus originales pantallas. Armonizando un bello conjunto conformado por lámparas colgantes, lámparas lineales, ... plafones, semi-plafones y otros elementos de iluminación como apliques de pared, sobremesas y un estilizado pié de salón. La colección perfectamente puede albergar luz de bajo consumo, siendo el acabado de su metal en baño de cromo o acabado cuero. Sus pantallas podrán ser en blanco o negro según su elección. Así pues Ninette, no puede pasar inadvertido a su gusto, si desea dotar de elegancia y distinción a esa estancia que usted pretende vestir, con cualquiera de estos bellos elementos de iluminación.

Ninette is the name of this gracefully streamlined romantic lighting collection proposed by José Ignacio Ballester for Mantra. Brief unfinished lines frame the structures of its elements as the elegance of its lightweight frames move in harmony with its original shades. A harmoniously beautiful set comprised by hanging lamps, linear lamps, ceiling and semi-ceiling lamps, and other lighting elements such as wall lamps and table lamps as well as a stylish floor lamp. The collection perfectly houses low-consumption light and its metal finish is available in chrome plate or leather finish. Their shades can be black or white according to your choice. Thus, Ninette is an outstanding example of good taste if you wish to decorate your room with an elegant sophisticated style with any of the beautiful lighting elements of this collection.

MARA

MARA es una colección de formas elegantes y sencillas creada por Jose Ignacio Ballester, que entrelazan y giran sus perfiles cónicos generando estructuras tridimensionales de movimiento visual. Aporta una serie de detalles peculiares de cristal, junto con unos enfilajes y pantallas de formato distinto, presentan en acabado cromo brillo y en cuero. los colores de pantallas, crema o negro, en plisado americano.

MARA is a collection of elegantly simple forms created by Jose Ignacio Ballester, whose conical frames intertwine and rotate to generate three-dimensional structures of visual movement. It has a bright chrome or leather finish, which we call "chocolate". Both finishes can be combined with cream or black shades in American pleating.

AKIRA

Colección de iluminación sobria y sofisticada. Combina la luz ambiental que destilan sus pantallas, el cromo de sus acabados con el remate amorfo de su detalle de cristal transparente, el cual capta la luz de forma especial, distorsionándola y generando agradables brillos que la hacen distinta y espontánea en contrapunto a sus líneas rectas que la definen. Pantallas crema y negras en distintos formatos y tamaños se presentan en sus lámparas y accesorios complementarios, contando con tres apliques, dos sobremesas, pié de salón, plafón, colgante y lámparas de 3, 5 y 8 luces. Todas ellas aptas para albergar luz de bajo consumo. **Akira** pues combina la calidad de sus acabados, luz ambiental y líneas agradables, para que sus estancias tengan un toque distintivo y especial.

*Collection sober and sophisticated lighting. Combines ambient light that exude their screens, chrome finishes with your detail shot amorphous transparent glass, which captures light in a special way, distorting it and generating pleasant brightness that make it different and spontaneous in counterpoint to their lines lines that define it. Cream and black screens in different formats and sizes are presented in their lamps and complementary accessories, having three sconces two desktops, floor lamps, ceiling lamps, pendant lamps and 3, 5 and 8 lights. All suitable to house low-energy light. **Akira** it combines the quality of its finishes, ambient light and pleasant lines, so that their stays have a distinctive twist.*
